Parent or Guardian Consent

For Prove/n testers under 18. Please read this together, then fill in and sign page 2 and upload it with the registration form at prove-n.app/testers.

About Prove/n

Prove/n is a screen-time tracking app for Android that lets people earn screen-time minutes by answering questions in math, computer science, science (physics, chemistry, biology, earth science and the human body) or history. Apps to cut back on, like social media or games, go on a guard list. Each correct answer earns minutes to spend in those apps. When the minutes run out, the guarded apps lock until another question is answered.

The test

- The test runs for 14 days on each tester's own Android phone. All testers begin together once all 20 spots are filled and all participants are approved.
- Testers install Prove/n from Google Play using a link sent by email, use it normally, and keep it installed for the full 14 days.
- Testers complete three short check-in questionnaires on days 1, 7, and 14. All three are required to receive payment and enter the prize draw.
- Participation is free. Testers will never be asked to make a payment or purchase.

What Prove/n can access and collect

- To lock apps, Prove/n uses Android's Accessibility service, which your child enables in Settings. This allows Prove/n to identify which app is open and track how long guarded apps are used. If your child enables optional habit nudges, Prove/n also detects when they switch screens or tap a text field within a guarded app. It cannot read screen content or anything your child types.
- Information about which apps your child opens, how long they use them, their usage patterns, and their focus hours is stored only on their phone. **None of this information is uploaded to Prove/n's server.**
- Prove/n's server stores your child's account details (name, email, and password), progress, question settings, Deep Focus streak count, and username, if they choose to create one. Answers to questions are graded on the server and are never sent to an AI provider. The server also uses a Google Play purchase token to verify access to purchased features.
- Usernames appear on leaderboards visible to other users. Your child should choose a username that does not reveal their real name.
- If your child chooses to upload their own study notes, names, email addresses, and phone numbers are removed before the text is sent to OpenAI to generate questions.
- The registration form collects the tester's name, Play Store email, province, grade and phone model, the parent or guardian's name and email, and this signed form.

Payment and prize draw

- Testers who complete the 14-day requirements receive $10 CAD by Interac e-Transfer, paid to the tester or their parent or guardian (see page 2). No payment is provided for early withdrawal. Requirements are listed at prove-n.app/testers.
- All testers who meet the requirements are entered into a draw to win one game of their choice, valued at up to $110 CAD. Winners under 18 need parental or guardian approval to select a game rated above their age. The winner must answer a skill-testing question. Full contest rules are available at prove-n.app/testers.

Stopping and deleting data

- Testers can stop at any time by uninstalling Prove/n and leaving the tester program on Google Play. Consent can be withdrawn at any time through the contact form at prove-n.app/testers.
- To delete the Prove/n account and everything stored with it, go to **Settings > Delete account** in the app.
- To have registration form answers, this consent form or any other information deleted, use the contact form at prove-n.app/testers.
- Registration form answers and signed consent forms are deleted once the 14 days and the prize draw are finished.
- **Questions?** Use the contact form at prove-n.app/testers.

Consent

Fill in the boxes, then sign below. Testers must be at least 13.

About the tester

Tester's full name

Tester's age

Tester's Play Store email (the Google account on their Android phone)

School grade

Province or territory

Parent or guardian

Your full name

Relationship to the tester

Your email

☐ Send the $10 CAD e-Transfer to my email instead of my child's.

I confirm that I am the parent or legal guardian of the tester named above and have read this form. I consent to my child participating in the Prove/n beta test, including installing the app, enabling its Accessibility service, creating an account, and having their information collected and used as described to administer the test, process payment, and conduct the prize draw. I understand that my child may stop participating, and I may withdraw my consent, at any time.
